## Safety First

### Safety Definitions

Statements in this manual preceded by following words are of special significance:

#### A WARNING

WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

### A WARNING

Set volume levels and other controls on audio and electronic devices before riding. Distractions can lead to loss of control, resulting in death or serious injury.

## A WARNING

Do not select a volume level that blocks out traffic noise or interrupts the concentration necessary for the safe operation of the Motorcycle. Distractions or a volume level that blocks our traffic noise could cause loss of control resulting in death or severe injury.

## Note

Pay attention while riding, keeping your eyes and clear mind on the road. Some features are locked out to prevent distraction, limited in capability while the Motorcycle is in motion. Even a part is available, do not allow it to distract you from operating your Motorcycle safely.

For safety, program the system when stopped. Perform system setup and get familiar with the controls and features of the infotainment system before operating the Motorcycle on the road.

This system cannot warn about the safety of an area, bad road conditions, and availability of emergency services.

Use this radio only in locations where it is safe to do.

## Pre-RIDING

## Appearance

## Check list

Configure the system with your personal preferences before riding to use features and minimize distractions while on the road entirely.

- 1. Set brightness, background.
- 2. Configure presets.

3. Adjust audio settings like EQ, volume, fade, balance etc. before ridding.

4. Pair, connect and set up phone features through Bluetooth.

5. Connect USB devices for Apple CarPlay® or Android Auto®.

6. Selectstation or media

### CARE AND CLEANING

Use only **HDHU.9813SG** recommended products and methods to keep the radio, speakers, and other audio system components clean and in good condition.

Do not use any abrasives, polishes, or rubbing compoundsto clean the screen or other components. Do not use any ammonia-based cleaners on the net.

The use of other products or methods may cause damage to components.

#### <u>Screen :</u>

Do not use any chemical cleaners or chemical-containing wipes or cloths.

These can cause damage to the screen surface.

Gently clean the display glasssurface with a clean, dry microfiber cloth. Before cleaning, it is suggested to remove any visible dust, dirt, sand particles with a gentle compressed airstream.

Volu	me Settings	>

#### Balance/Fader:

Touch the + or – of Balance/Fade to tune for the driver and passenger preference.

The value of Balance (Left 12 – Right 12) and Fader (Front 12 – Rear 12).

Touch Reset to set both **Balance** and **Fader** to **zero**.

### 13-Band Equalizer:

13-band of EQ tuning, slide the EQ bar to tune each band frequency level according to use preference.

Touch Reset button to sell all Band to zero.

Or user can touch "<" or ">" at the bottom to select the following preset EQ: Off, Soft Rock,Pop,Electric,Jazz, EQ Custom.

### About the Crossover

This unit is equipped with an active crossover. The crossover limits the frequencies delivered to the outputs.

The crossover adjusts the HPF (high pass filter) or LPF (low pass filter) of speakers and subwoofer, and also the slope (how fast the filter rolls off the highs or lows).

Adjustments should be made according to the reproduction characteristics of the speakers. Depending on the speakers, a passive network may not be necessary. If you are unsure about this point, please consult your authorized Alpine dealer.

- HPF (high pass filter): Cuts the lower frequencies and allows the higher frequencies to pass.
- LPF (low pass filter): Cuts the higher frequencies and allows the lower frequencies to pass.
- Slope: The level change (in dB) for a frequency change.
- The higher the slope value, the steeper the slope becomes.

• Do not use a tweeter without the HPF set on, with a high cut-off frequency, otherwise damage may occur to the speaker due to the low frequency content.

• Adjustment should be made according to the recommended crossover frequency of the connected speakers. Determine the recommended crossover frequency of the speakers. Adjusting to a frequency range outside that recommended may cause damage to the speakers.

For the recommended crossover frequencies of speakers, refer to the respective Owner's Manual.

We are not responsible for damage or malfunction of speakers caused by using the crossover outside the recommended value.

#### Front/ Rear Crossover:

Slope: 12dB/24dB

User can touch "<" or ">" to select the desired frequency Value.

#### Subwoofer Settings:

#### Subwoofer Output: ON or OFF. Subwoofer Level: -10~+10 Subwoofer Crossovers:

## Subwoofer Phase: 0º or 180º

User can touch "<" or ">" to select the  $0^{\rm o}\, {\rm or}\,\, 180^{\rm o}$ 

#### AMP Turn-on Delay: ON /OFF.

User can set AMP Turn-on Delay is ON or OFF.

#### Volume Settings:

User can set Source Level / Maximum Volume.

Ð	Volume Settings	\$ 12:01	AM

Clear Records: To clear the device list records.

## Apple CarPlay®

## Apple CarPlay:

You can operate iPhone applications with finger gestures such as tapping, dragging, scrolling, or flicking on the screen of this product.

### Compatible iPhone models

For details about compatibility of iPhone models, refer to the following website. https://www.apple.com/ios/carplay

### WARNING

Certain uses of the iPhone may not be legal while driving in your jurisdiction, so you must be aware of and obey any such restrictions. If in doubt as to a particular function, only perform it while the car is parked. No feature should be used unless it is safe to do so under the driving conditions you are experiencing.

### Notes on using Apple CarPlay

- iPhone with iOS 7.1 or later is required. Update to the latest iOS version before use.
- Apple CarPlay can be used on iPhone 5 or later.
- For details on compatible models, refer to the compatibility list on the support site on the back cover.
- For details about Apple CarPlay, refer to the manual supplied with your iPhone, or visit the website of Apple CarPlay.
- Since the GPS on your iPhone is used, place your iPhone where it can easily receive a GPS signal
- You can use Siri function by touching
- The Bluetooth connection with the Apple CarPlay compatible device will be terminated automatically if Apple CarPlay is turned on.
- Hands-free phoning via Bluetooth wireless technology is not available while Apple CarPlay is on.

### Starting procedure of using Apple CarPlay

1 Connect an Apple CarPlay compatible device to this unit via USB. 2 Touch the Apple CarPlay icon. The Apple CarPlay home screen appears.

You can use Apps of connected iPhone. The items displayed and the language used on the screen differ among the connected devices. To enter the Apple CarPlay mode, touch Apple Carplay icon on the Home selection screen.

## Application keys

Start the application.

## 2

Display the home screen of Apple CarPlay. Touch and hold to active Siri.

## 3 Home

Exit the Apple CarPlay screen and displays Home screen.

\* The icon design may change depending on the iOS version.

## Android Auto®

## Android Auto®:

You can operate Android applications with finger gestures such as tapping, dragging, scrolling, or flicking on the screen of this product

### Starting procedure of using Android Auto

1 Connect an Android Auto<sup>™</sup> compatible device to this unit via USB. 2 Touch the Android Auto icon

The Android Auto home screen appears

## Note:

- You can use Voice function by touching
- $\Psi$  button once Android Auto is activated.

• The Bluetooth connection with the Android Auto compatible device will be terminated automatically if Android Auto is turned on.

• Hands-free phoning via Bluetooth wireless technology is not available while Android Auto is on.

## Notes on using Android Auto

• Android phone with Android 5.0 or higher is required. Update to the latest OS version before use.

• Your Android phone needs to support Android Auto. For details on compatible models, refer to the compatibility list on the support site on the back cover.

• Download the Android Auto app on Google Play.

For details about Android Auto, refer to the manual supplied with your Android phone, or visit

• Since the GPS on your Android phone is used, place your Android phone where it can easily receive a GPS signal.

• Android Auto may not be available in your country or region.the website of Android Auto.

## Application keys

Start the application.

## 2 Home

Exit the Android Auto screen and displays Home screen.

## ③ Operation Bar

## SiriusXM Operation

#### SiriusXM Ready

SiriusXM is where moments happen. The widest, deepest variety of music, ad-free. More games, more sports, more coverage than anywhere. The most extensive entertainment, complete news coverage and every kind of comedy. Listen in your car, on your phone, online and at home. A SiriusXM Vehicle Tuner and subscription are required. For more information, visit www.siriusxm.com.

Activating your SiriusXM Subscription after installing your SiriusXM Connect Vehicle Tuner and antenna, power on your Headunit and select SiriusXM mode. You should be able to hear the SiriusXM preview channel on Channel 1. If you cannot hear the preview channel, please check the installation instructions to make sure your SiriusXM Connect tuner is properly installed.

After you can hear the preview channel, tune to **Channel 0** to find the **Radio ID** of your tuner. In addition, the Radio ID is located on the bottom of the SiriusXM Connect Vehicle Tuner and its packaging. You will need this number to activate your subscription. Write the number down for reference.

**Note:** the SiriusXM Radio ID does not include the letters I, O, S or F.

In the **USA**, you can activate online or by calling SiriusXM Listener care:

- Visit www.siriusxm.com/activatenow
- Call SiriusXM Listener Care at

#### 1-866-635-2349

For Canadian Subscriptions, please contact:

- Visit www.siriusxm.ca/activate
- Call SiriusXM Customer Care at

#### 1-888-539-7474

As part of the activation process, the SiriusXM satellites will send an activation message to your tuner. When your radio detects that the tuner has received the activation message, your radio will display "Subscription Updated".

Once subscribed, you can tune to channels in your subscription plan. Note, the activation process usually takes 10 to 15 minutes, but may take up to an hour. Your radio will need to be powered on and receiving the SiriusXM signal to receive the activation message.

## SiriusXM Ready

To enter SiriusXM mode, touch the SXM icon on the Main Menu:

If the **CHECK TUNER** message appears, verify all connections are complete. Confirm the Vehicle Connect Tuner is connected, as well as the antenna for the Vehicle Connect Tuner.

When successfully connected, the user interface will appear:

SiriusXM Channel Logos are displayed in the user interface, providing a graphical representation of the current channel tuned.Album art can be displayed for most of the SiriusXM music channels. When album art is not available, the channel logo or the SiriusXM logo will be displayed.

**Note**: Compatible with SXV200 or later tuner models. Not all music channels contain album art images.

#### **User Interface Operation**

Press FM or AM keys to toggle between SXM & FM/AM radio mode

Press the SXM key to toggle between three preset groups

Press the ALRT key to view current song and/or artist alerts Press the Channel Browse key to scro

Press the Channel Browse key to scroll channel listings by category

Press the Direct Tune key to enter a specific channel number to tune

Press the EQ key to open the 10-band equalizer settings

Press the Settings icon to access settings specific for SiriusXM mode

Press the Next or previous channel keys to advance channels

Press any preset key to tune the stored channel. To store a preset, tune to the desired channel, then press & hold on the preset location for 3 seconds.

## Artist & Song Alerts ALRT

While listening to SiriusXM Satellite Radio, you can mark Artists and/or Songs for which you wish to be alerted. The radio will display an Alert message whena matching artist or song is found on another channel. Then you can choose if you want to tune to that favorite or you can ignore the alert and stay on your current channel. To save an artist or song title, press on the artist name or song title on the screen. Then, confirm again to save the favorite.

## SiriusXM Operation

## Channel Browse

Press the Browse key to scroll channel listings by category or all available channels.

## **Channel List**

Press **Ch. List** to view all available channels in numeric sequence. Scroll the list to the desired channel, then select within the channel row to tune the channel.

## **Category List**

Press **Cat. List** to view all available channels in category sequence.

Select a category by pressing the left or right arrows above the channel list. Scroll the corresponding category's channels below, press a channel name to tune the channel.

At any time, press the content key on the right side to view the artist, title, & other

information about the song/content currently playing on the channel(s) listed.

## **My Music**

Press the MyMusic key to view all stored artist & song title alerts. Press the red X at right of any undesired alerts to delete it. Temporarily disable any alert by deselecting the check box some left of any alert.

Disable all alerts by sliding the switch on top to off.

## Direct Tuning a Channel

Press the Direct Tune key to enter a channelnumber to tune. Enter the channel number using the keypad pop-up, then select the green check box I to confirm your selection. If a number is entered in error, press the red backspace keyto erase the last digit.

## SiriusXM Operation

## 13-Band Equalizer

Press the 13-Band Equalizer key to access the audio equalizer settings. Return to the Audio & EO Settings section of this owners manual (pg. 13) for more information

## SiriusXM Settings Menu

Press the settings icon to enter the SiriusXM settings menu.

## Parental Controls

## Trouble Shooting

Problem	Cause	Correct action
	Check fuse	Replace fuse
No Power, Dead.	Incorrect wiring	Consult your Local Specialist. www.MotorcycleAudio.com/Spe cialist-Locator
No sound output when operating the unit with amplifiers or power antenna attached.	Power antenna lead is shorted to ground excessive current is required or remote on the amplifiers or power antenna	I. Turn off the unit.     Z. Remove all wires attached to     the power antenna lead.     Check eachwire for a possible     short to the ground using an     ohm meter.     J. Turn on the unit.     4. Reconnect each amplifier     remotewire to the power antenna     lead one by one. If the amplifiers     turn off before all wires are     attached, use an external replay     to provide remote-on voltage     (excessive current required)
Poor performance of radiostation	Weak signal	Move the Motorcycle to another place, then tryagain
	Volume is in minimum.	Adjust volume to the desired level.
No Sound or Audio	The wiring is not properly connected	Check wiring connection.

## **FCC Compliance**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part

15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause

harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following **measures:** 

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
